WELCOME TO THE TEC (TECHNOLOGY ENHANCED CLASSROOM)

An introduction to the room

This room is designed to provide you with full multimedia capabilities and computer resources

This is the main workstation

This is the Control Panel

**Wait for the Panel Lights to stop flashing before doing anything!
The projector requires about a minute to warm up before it can be used.**

The buttons in the upper left corner control the Projector

RBG1 is the Desktop Computer

RGB2 is for a Laptop (or other VGA input)

Vid3 is the DVD/VCR player

Vid4 is an extra input for a VCR or DVD player

To Use the Desktop Computer

Make sure that the computer is turned on and that the Control Panel is set to **RGB1**

If the computer is off press power on the Tower under the desk

The Monitor will display a Login screen

The User Name is **Guest** and the Password is **visitor** (passwords are case sensitive)

To Use A Windows Based Computer or a Mac Based Coputer with std VGA connector

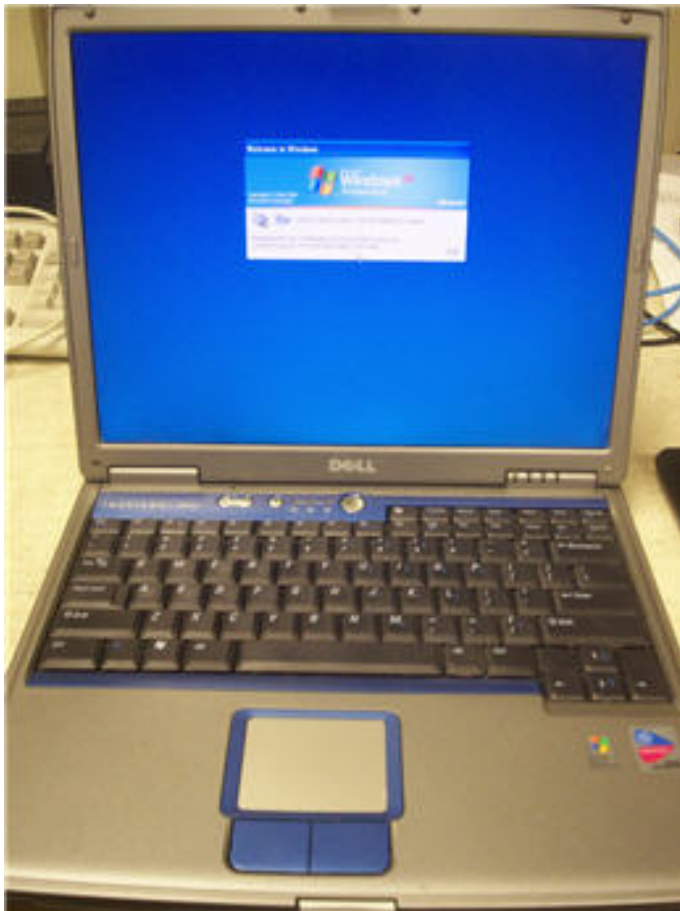

To Use a Windows Computer or VGA Connection Make sure that the Control Panel is set to RGB 2 Connect the Black Network Cable and the Black VGA Cable (with the yellow end) as they are below

To plug your laptop into the built in speakers connect this plug to your headphone jack or line out:

Turn the laptop on

To Use an Apple or Mini DVI Connection or Other type of connector (not supplied)

Connect a DVI to VGA adaptor into the DVI port on the side of your Mac then connect the Black VGA cable (with the yellow end) to the adaptor
Connect the Black Network Cable into the Network Port

Turn the Mac on

Using the VCR

Make Sure that the Control Panel is set to **Vid 3**
